IMAX Talent Acquisition Team

Sheridan Park Office — Mississauga, ON

Re: Finance Internship — Summer 2026

Dear IMAX Hiring Team,

I'm applying for the Summer 2026 Finance Internship at your Sheridan Park office. As a Mississauga local and a second-year Bachelor of Commerce student majoring in Management Economics and Finance at the University of Guelph, the chance to spend ten weeks learning finance inside the company that built the world's most awe-inspiring movie experience is the kind of opportunity I'd reorganize my entire summer around.

What I bring to the role:

- **A Commerce major built on the fundamentals you're hiring for.** My program at Guelph is grounded in financial accounting, corporate finance, and economic analysis — the toolkit behind month-end reporting, variance analysis, and reconciliation. I've worked in Excel through coursework on financial statements and case modeling, including pivot tables, VLOOKUP, and formulas.
- **Hands-on finance-process experience.** In my current role as Office Administrator at CarWash and Co., I manage daily invoicing, scheduling, and customer-account inquiries, and have collaborated with management on pricing and service-offering analysis. The work has given me a working feel for how transactional data flows into reporting — exactly the on-ramp this internship describes.
- **Real interest in applying AI to workflows.** Your job description mentions using AI to develop process maps and improve efficiency, and that's the part of the role I'm most excited about. I've spent the last year experimenting with AI tools for research, writing, and data work, and I'd love to bring that curiosity to documenting and automating Finance processes alongside your team.
- **Reliability and ownership.** I've been recognized for high client retention at CarWash, led a small team at Clarkson Community Church, and represented brands directly to consumers as a Brand Ambassador with Prime Marketing Agency. The throughline is that I take responsibility for outcomes, communicate clearly, and don't let details fall through the cracks.

On the IMAX side: the difference between a good movie and the IMAX version of that movie is exactly the kind of "make the experience awe-inspiring" obsession I'd want to be part of. Your culture — trust, courageous thinking, learning at every stage — is the kind of environment a second-year student dreams about for a first finance internship.

The June-to-August timing works perfectly with my academic calendar, and Sheridan Park is a short commute from home. I'd welcome the opportunity to discuss how I can contribute to your Finance team this summer. Thank you for considering my application.

Sincerely,

Bassam Ahmed
