

Husam Ahmed

Operations & Compliance | Federal Government Experience | Eligible for Security Clearance
Ottawa, ON | husamdaifalla01@gmail.com | (647) 685-6908

PROFESSIONAL SUMMARY

Operations and compliance professional with federal government experience maintaining record integrity, version control, and audit-ready documentation across high-volume case management workflows. Build and maintain Standard Operating Procedures (SOPs), compliance checklists, and regulatory change logs that keep procedures current as requirements evolve. Bilingual in English and Arabic, with working knowledge of federal program delivery, the Immigration and Refugee Protection Act (IRPA), and the Global Case Management System (GCMS).

CORE SKILLS

- Documentation:** SOP Development, Regulatory Documentation, Compliance Checklists, Change Logs, Version Control, Content Management, Knowledge Management, Technical Writing, Briefing Notes.
- Operations:** Case Management, Data Integrity, Records Management, Data Analysis, Quality Assurance, Audit Readiness, Process Improvement, Workflow Mapping, Escalation Coordination.
- Compliance & Policy:** IRPA, IRCC Legislation, Regulatory Analysis, Privacy Compliance, KYC, Information-Sharing Controls, Federal Program Delivery.
- Tools:** GCMS, Microsoft Excel (pivot tables, lookups, formulas), Power BI, SharePoint, Microsoft Teams, Document Management Systems, CRM Platforms.

PROFESSIONAL EXPERIENCE

Program Assistant (CR-04, Acting PM-01) Aug 2024 to Present
Immigration, Refugees and Citizenship Canada, Operations Support Centre / Ottawa, ON

- Investigate and resolve client identity discrepancies in IRCC's Global Case Management System (GCMS), including biometric transmission failures, duplicate Unique Client Identifiers (UCIs), and unlinked profiles that would otherwise block application processing.
- Provision and administer system access for staff at 60+ Visa Application Centres and Missions abroad who conduct biometric enrolments, processing account requests, permission changes, and urgent system issues across time zones with each action documented.
- Apply the Immigration and Refugee Protection Act (IRPA) and IRCC policy to daily case decisions on what information can be shared, with whom, and under what conditions, coordinating compliant information-sharing with internal teams and overseas missions.
- Analyze large case datasets in GCMS reporting tools and Excel to confirm application statuses, identify anomalies, and surface potential information-sharing breaches that require controlled handling under federal privacy and information-management protocols.
- Process casework as a Case Processing Agent on biometric transmission failures, manual enrolments, and household applications, executing UCI merges and biometric associations and disassociations in GCMS and contributing to breach reviews involving identity record corrections.

Water Quality Researcher, Quality Systems Nov 2023 to Present
Stelis Environmental Solutions / Ottawa, ON

- Built Power BI heat maps of contamination patterns across Canada and the US by gathering public water-quality reports from federal, provincial, and state agencies to support market-prioritization analysis.
- Compared real-time sensor outputs against lab reference results in Excel, calculating agreement rates and descriptive statistics across pilot sites to evaluate real-time monitoring as a lab-testing substitute.
- Analyzed alarm frequency and false-positive rates in pivot tables and tracked sampling trends over time, surfacing seasonal and site-level patterns to inform threshold and sampling-frequency tuning.
- Built a recurring Excel summary view of pilot data — sample counts, exceedances, and method-vs-lab agreement — reviewed by project leads to track pilot progress.
- Maintain a regulatory change log spanning federal and provincial environmental rules, logging each change and affected SOPs and surfacing emerging compliance risks to project leads.

- Consolidated federal and provincial microbial water-monitoring rules into a single SOP and compliance checklist, adopted as the team's primary reference for assessing real-time monitoring outputs.

Manager on Duty / Sales Advisor

May 2021 to Aug 2024

Rogers Communications / Ottawa, ON

- Managed day-to-day store operations as Manager on Duty (MOD), serving as the on-floor decision-maker for credit, KYC, and privacy questions and approving transactions only when each compliance step was met.
- Onboarded and trained new hires on KYC procedures, privacy requirements, and documentation standards to maintain consistent compliance across the team and across all shifts.
- Led a team of three over three years, embedding compliance into daily operations, reviewing customer records and transaction documentation for accuracy, and holding the team accountable to internal procedure.
- Maintained client retention above 90% and high CSAT by analyzing CRM customer history in Excel and structuring follow-up workflows that produced an auditable record of each customer interaction.

Market Research Interviewer

Jan 2021 to May 2021

Elemental Data Collection / Ottawa, ON

- Conducted structured interviews against research protocols and polling scripts, capturing responses accurately to support clean downstream datasets and consistent reporting across projects.
- Improved sample quality by converting 30–40% of initial refusals, raising response rates and strengthening the representativeness of project data.
- Applied standardized procedures for respondent selection, structured data entry, and script adherence to maintain consistency and comparability across research projects.
- Maintained accurate records of response outcomes, call attempts, and interview dispositions to support supervisor and analyst review and reliable downstream reporting.

EDUCATION

Bachelor of Science, Biology

Sep 2020 to Dec 2024

University of Ottawa / Ottawa, ON
