

Husam Ahmed

Privacy & Information Management • Federal Government Experience • Active Reliability Status

Ottawa, ON · husamdaifalla01@gmail.com · (647) 685-6908 · linkedin.com/in/husamahmedca

PROFESSIONAL SUMMARY

Federal operations professional who makes controlled disclosure decisions under the Privacy Act and IRPA every working day: what client information can be shared, with whom, under what authority. Current work at IRCC's Operations Support Centre spans breach handling, records corrections on national identity data, and case triage at a national intake, with every decision documented and defensible. Active Reliability Status. Currently completing the Google Data Analytics Professional Certificate (Coursera).

CORE SKILLS

Compliance & Policy · Privacy Act, Information-Sharing Controls, Breach Handling, Privacy Compliance, IRPA, Regulatory Analysis

Operations · Records Management, Case Triage, Case Management, Data Integrity, Audit Readiness, Quality Assurance

Documentation · SOP Development, Procedure Authoring, Technical Writing, Briefing Notes, Change Logs, Version Control

Tools · GCMS, Microsoft Excel (pivot tables, lookups, formulas), Power BI, SharePoint, Microsoft Teams

PROFESSIONAL EXPERIENCE

Program Assistant / Acting Case Processing Agent (CR-04, acting PM-01)

Aug 2024 to Present

Immigration, Refugees and Citizenship Canada, Operations Support Centre / Ottawa, ON (Held concurrently with the Stelis role below from Aug 2024 to Jul 2025.)

- Apply the Immigration and Refugee Protection Act (IRPA) and controlled information-sharing protocols when handling flagged breaches, determining what client information can be shared, with whom, and under what authority, while coordinating corrective action with internal teams and overseas missions.
- Confirm citizenship status by reviewing naturalization records, certificate issuance, and grant or revocation history in IRCC systems, returning verified status with supporting documentation cited for downstream officers and partner program requests.
- Triage the central Data Integrity unit's national intake of status checks and household identity-correction requests routed from offices across the federal department, supporting both PPMI and IMM applicants, prioritizing against case urgency and team capacity.
- Resolve probabilistic identity matches in IRCC's Global Case Management System (GCMS) by cross-referencing biographic, biometric, and travel-document evidence across two or more associated client records, including multi-record household cases, then commit master-record corrections (UCI merges, biometric associations and disassociations, profile relinking) to restore case integrity for federal applicants.
- Run pivot analyses in Excel and reporting queries in GCMS across large case datasets to confirm application statuses, surface anomalies, and flag potential information-sharing breaches for controlled handling.

Water Quality Researcher

Nov 2023 to Jul 2025

Stelis Environmental Solutions / Ottawa, ON (Held concurrently with the IRCC role above (Aug 2024 to Jul 2025).)

- Author and maintain the team's consolidated SOP and compliance checklist on federal and provincial drinking-water rules (Health Canada GCDWQ, Ontario O. Reg. 169/03 and 170/03), used as the primary reference for assessing real-time outputs against lab-based requirements.
- Track regulatory changes to drinking-water rules in a running change log, update the SOP and compliance checklist as rules evolve, and surface compliance risks to project leads.
- Write the briefing notes and comparison tables that go to senior management, laying out speed, verification, documentation, and regulatory-acceptance tradeoffs between real-time and lab-based monitoring.
- Map the end-to-end monitoring workflow to flag where handoffs slow things down, documenting lab turnaround times against the response windows required to contain microbial contamination.
- Combine and clean public drinking-water and wastewater monitoring data from Health Canada, the US EPA, and provincial reports, standardizing inconsistent reporting formats, then build cross-jurisdictional Power BI dashboards, including exceedance heat maps, that drive the team's market prioritization.

Manager on Duty / Sales Advisor

May 2021 to Aug 2024

Rogers Communications / Ottawa, ON

- Acted as on-floor compliance authority for credit, KYC, and privacy decisions, reviewing customer documentation and credit-check results and approving transactions only when every regulatory and internal-policy step was met.
- Onboarded and trained new hires on KYC procedures, privacy requirements, and documentation standards, maintaining consistent compliance across shifts; led a team of three over three years.

- Ran the store floor as Manager on Duty, owning opening and closing procedures, cash and inventory controls, and daily targets, and serving as the escalation point for both staff and customers across the shift.
- Drove client retention above 90% and high CSAT by analyzing CRM customer history in Excel and building structured follow-up workflows that produced an auditable record of each customer interaction.

Market Research Interviewer

Jan 2021 to May 2021

[Elemental Data Collection](#) / Ottawa, ON

- Conducted structured interviews against research protocols and polling scripts, capturing responses accurately to support clean downstream datasets and consistent reporting across projects.
- Applied standardized procedures for respondent selection, structured data entry, and script adherence to maintain consistency and comparability across research projects.
- Maintained accurate records of response outcomes, call attempts, and interview dispositions to support supervisor and analyst review and reliable downstream reporting.

EDUCATION

Bachelor of Science, Biology

Sep 2020 to Dec 2024

[University of Ottawa](#) / Ottawa, ON

- Structured data collection and documentation in microbiology coursework (sample handling, protocol adherence, results logging).
- Quantitative and statistical analysis of laboratory datasets in Excel; technical lab reports summarizing methods, results, and limitations.
