

Husam Ahmed

(647) 685-6908 | husamdaifalla01@gmail.com | Ottawa, ON | Active Reliability Status

PROFESSIONAL SUMMARY

Compliance and operations professional working at the intersection FINTRAC supervises from above: three years executing KYC obligations on a regulated front line at Rogers, and current federal casework at IRCC applying IRPA and the Privacy Act to information-sharing and breach handling at a national intake. Concurrently author SOPs, compliance checklists, and a regulatory change log in a quality-systems research role. Active Reliability Status. Currently completing the Google Data Analytics Professional Certificate (Coursera).

CORE COMPETENCIES

KYC and Client Due Diligence

Regulatory Compliance

Case Analysis and Triage

Compliance Documentation and SOPs

Breach Handling

Regulatory Change Tracking

Excel Pivot Analysis

Power BI Reporting

WORK EXPERIENCE

Immigration, Refugees and Citizenship Canada, Operations Support Centre

Aug 2024 to Present

Program Assistant / Acting Case Processing Agent (CR-04, acting PM-01) / Ottawa, ON (Held concurrently with the Stelis role below.)

- Apply the Immigration and Refugee Protection Act (IRPA) and controlled information-sharing protocols when handling flagged breaches, determining what client information can be shared, with whom, and under what authority, while coordinating corrective action with internal teams and overseas missions.
- Resolve probabilistic identity matches in IRCC's Global Case Management System (GCMS) by cross-referencing biographic, biometric, and travel-document evidence across two or more associated client records, including multi-record household cases, then commit master-record corrections (UCI merges, biometric associations and disassociations, profile relinking) to restore case integrity for federal applicants.
- Perform in-depth identity analysis on client files, examining passports and travel documents directly and drawing on close familiarity with the fraudulent tactics applicants use to try to defeat identity controls.
- Triage the central Data Integrity unit's national intake of status checks and household identity-correction requests routed from offices across the federal department, supporting both PPMI and IMM applicants, prioritizing against case urgency and team capacity.
- Run pivot analyses in Excel and reporting queries in GCMS across large case datasets to confirm application statuses, surface anomalies, and flag potential information-sharing breaches for controlled handling.

Stelis Environmental Solutions

Nov 2023 to Present

Water Quality Researcher, Quality Systems / Ottawa, ON (Concurrent with the IRCC role above.)

- Author and maintain the team's consolidated SOP and compliance checklist on federal and provincial drinking-water rules (Health Canada GCDWQ, Ontario O. Reg. 169/03 and 170/03), used as the primary reference for assessing real-time outputs against lab-based requirements.
- Track regulatory changes to drinking-water rules in a running change log, update the SOP and compliance checklist as rules evolve, and surface compliance risks to project leads.
- Write the briefing notes and comparison tables that go to senior management, laying out speed, verification, documentation, and regulatory-acceptance tradeoffs between real-time and lab-based monitoring.
- Compare real-time ColiMinder readings against culture-based lab results in Excel pivot tables, calculating percent agreement and false-positive rates across pilot sites to quantify how closely the real-time method tracks the lab benchmark.
- Map the end-to-end monitoring workflow to flag where handoffs slow things down, documenting lab turnaround times against the response windows required to contain microbial contamination.

Rogers Communications

May 2021 to Aug 2024

Manager on Duty / Sales Advisor / Ottawa, ON

- Acted as on-floor compliance authority for credit, KYC, and privacy decisions, reviewing customer documentation and credit-check results and approving transactions only when every regulatory and internal-policy step was met.
- Onboarded and trained new hires on KYC procedures, privacy requirements, and documentation standards, maintaining consistent compliance across shifts; led a team of three over three years.
- Ran the store floor as Manager on Duty, owning opening and closing procedures, cash and inventory controls, and daily targets, and serving as the escalation point for both staff and customers across the shift.
- Drove client retention above 90% and high CSAT by analyzing CRM customer history in Excel and building structured follow-up workflows that produced an auditable record of each customer interaction.

Elemental Data Collection

Jan 2021 to May 2021

Market Research Interviewer / Ottawa, ON

- Conducted structured interviews against research protocols and polling scripts, capturing responses accurately to support clean downstream datasets and consistent reporting across projects.
- Applied standardized procedures for respondent selection, structured data entry, and script adherence to maintain consistency and comparability across research projects.
- Maintained accurate records of response outcomes, call attempts, and interview dispositions to support supervisor and analyst review and reliable downstream reporting.

EDUCATION

Bachelor of Science, Biology / University of Ottawa

Sep 2020 to Dec 2024

Structured data collection and documentation in microbiology coursework (sample handling, protocol adherence, results logging). Quantitative and statistical analysis of laboratory datasets in Excel; technical lab reports summarizing methods, results, and limitations.

CERTIFICATIONS

Google Data Analytics Professional Certificate / Coursera

In progress

SKILLS

Languages: English (native), Arabic (native), French (working knowledge)

Tools: GCMS, Excel (pivot tables, lookups, formulas), Power BI, SharePoint, Microsoft Teams

Status: Active Reliability Status (Government of Canada); no sponsorship required
